

# CHINA E-VEHICLE

CHINA E-VEHICLE is the only English electric vehicle magazine (monthly) published in China and distributed globally. It includes the latest electric vehicles (electric bicycle, scooter, motorcycle and car) of Chinese and global brands as well as component information. People are able to know what is happening out there in China's and global EV industry through this magazine. CHINA E-VEHICLE has built a stable and solid friendship with LEVA back in 2009, and both come together to further accelerate the popularization of EV especially light electric vehicles (LEV) in the world as well as the riding culture of LEVs. People can get access to the free copies of CHINA E-VEHICLE at most global two wheeler exhibitions, such as Taipei Cycle (Taiwan), Eurobike (Germany), Interbike (America), EICMA (Italy), Intermot (Germany), China Cycle (China), Canton Fair (China) and Salao Duas Rodas (Brazil) etc. Its team is determined to further increase its presence at more professional exhibitions in 2012. CHINA E-VEHICLE is also seeking for co-operation possibility with non-China enterprises, relevant media and organization.
